Dear Mr. Nelson:

Thank you for your expressed interest in our 40X package. As of this moment, we don't have a formal brochure on the package. The amount of interest in the program has been very heavy and we just haven't had a chance to produce a sales document.

I am enclosing the first five (5) pages of our User's Reference Manual, which essentially describes what the package does. Should this information encourage you to want to know more, please drop me a note and we'll arrange a demonstration and a personal visit.

Please let us hear from you.

Yours very truly,
